# 🧠 SPENDLESS

SPENDLESS is a smart assistant web app for realistic shopping and meal plans.

Use your budget or existing plans for AI-powered cost estimation and plan creation.

🚀 Features

🔄 Plan Generator

· Enter budget, days, and food preferences

· Receive tailored meal plans and shopping lists

· AI ensures budget adherence or explains constraints

💰 Plan to Budget

· Paste custom plans or lists

· AI estimates total cost with detailed breakdown

· Overall price clearly highlighted

🛠️ Tech Stack

Frontend

React, JSX, CSS for smooth user interfaces

Backend

Node.js and Express powering server logic

AI API

[Google Gemini API](#) for budget estimation and plan generation

Markdown Renderer

Marked plus DOMPurify ensures safe rich text display
